CHAPTER I

INTRODUCTION

The history of social life in the *ante-bellum* South is embodied to a large extent in the history of the Southern plantation. To know what the persons did who lived on such an estate, to see how they conducted their labors and spent their leisure, to understand their ideals and their aspirations, is to know what the old Southern life was like. In the *Journal* here published all these things are reflected with a degree of accuracy that challenges dispute. It is the record of a man who had a strong sense of detail and who wrote for the purpose of expressing the thoughts and interests that occupied his daily life. Most probably he never thought that the work would be published. It has every indication of being an unconscious witness of what he did and thought. It speaks for itself to him who would know the character of a phase of life that is irrevocably past, a life that has often been described under the influence of romantic motives, a life that will never be better portrayed than in the candid pages of such men as Mr. Selden.

The Westover estate, on the James River, is itself one of the best known of all the historic estates of this country. It is situated on the James River, about twenty miles east of Richmond, at a place where the rich low-grounds are broad and inviting. One of the early proprietors described it as lying two miles above where the great ships rode; and from this fact it undoubtedly derived some of its early importance. Adjoining it on the east was the estate of Berkley, the home of one branch of the Harrison family. A few miles to the west was Shirley, the home of the James River branch of the Carters. A few miles below it was the famous Brandon estate, and not much further away was Green Springs, the fine estate of the famous royalist governor, Sir William Berkley, long the centre of fashion and

authority in colonial Virginia. The neighborhood was the best in the colony, at a time when Virginia was in the lead in all the English king's colonial possessions in America.

Most of the historic Virginia estates emerged from a maze of early land speculation about the middle of the seventeenth century—that is, when the colony was about half-a-century old. In this early phase of its history Westover was granted, in 1619, to Lord Delaware, whose family name was West. The title seems to have lapsed through failure to settle the place, and in 1638 it was re-granted, this time to Captain Thomas Pawlett, a kinsman of Governor Berkley. A few years later it passed to Sir John Pawlett, a brother of the second patentee, who sold the larger part of it (1200 acres) to Theoderick Bland for one hundred seventy pounds. In 1668 it passed by purchase to Captain William Byrd, in whose family it remained for one hundred and forty-six years. It was the Byrd family that made Westover the most noted estate in Virginia.

Captain William Byrd made his fortune in farming, Indian trade, and general development of the then frontier, at what is now the city of Richmond. His removal to Westover was due to two causes: he had become auditor of the colony and felt that he should live nearer the centre of settlements than the falls of the James, and having become one of the leading men in Virginia he wished to give his family the advantages of residence in a better-developed part of the colony. He bought Westover and lived there until his death in 1704. His last days were spent in widowed loneliness, attended only by his faithful housekeeper, Joanna Jarratt,¹ and his man, Jean Marat.

The estate devolved by his will to his one son, William Byrd, the second of the name, whom he had sent to England to be educated. This young man was already a well known figure in a fashionable group in London. He had won the good will of men of distinction, his fashionable bearing and ready purse made him a marked figure in society, and his solid intellectual

¹The overseer on the estate in Mr. Selden's time was named Jarratt. He remained there while the place was occupied by the Union Army.

qualities enabled him to hold his own among men prominent in literary and scientific matters. Returning to Virginia he took a leading part in the affairs of the colony, and a few years later went back to London, accompanied by his handsome daughter, Evelyn Byrd, who became at once a reigning belle. Colonel William Byrd, as he is called in contra-distinction from his father, Captain Byrd, spent much of the middle period of his life in England. His later years were passed in Virginia. Here he built (probably some time before 1737) the handsome home that still survives. He collected a large library for the times—in 1777 it contained nearly four thousand volumes. He entertained handsomely, and through his own distinction and ability he rose to the position of president of the council, next to the governor, the highest official in Virginia. He added to his other achievements the writing of three charming books, the style of which entitles him to the rank of the sprightliest writer in the colonies before Franklin. He died at Westover in 1744 and left the estate to his son, the third William Byrd of Westover.

The student of French history notes that Louis XIII built up the great French monarchy, Louis XIV made it famous and grand by his magnificent style of life and his ambition, and Louis XV wasted it by sensuous and uncontrolled appetites. In nearly the same way, the first William Byrd built up the Westover fortune, the second of the name made it brilliant by his magnificent talents, and the third of the name wasted it by his weakness. Under this man ill-fortune hovered over Westover. Gambling brought a load of debts, and finally the spendthrift took his own life in a fit of despair, on January 1, 1777. He left a strong-willed widow, Mary Willing, of the Philadelphia family of that name, who conducted the property with such ability that she managed to save the Westover estate for her own home and to keep it until she died there in 1814.²

After her death it was thrown on the market. It was purchased by William Carter, who soon became involved in debt

through indorsing for a friend, when it passed into the hands of a Mr. Douthall, who had won a large sum of money in a lottery. When he died, a short time later, it was sold to George E. Harrison, of Brandon, who intended to conduct the plantation in connection with his operations at his own place. He found that Brandon was too far from Westover for such plans, and in 1829 he sold Westover to John A. Selden for \$18,000. It was not again in the market until 1862, when it passed into the hands of Ellett and Drury, and later into the possession of Major Augustus Drury, the price being \$50,000. Here again it remained for many years and was sold in 1898 to Mrs. Charles Sears Ramsay, who remained the owner until 1920. It has just been announced that the place has been purchased by Mr. Richard Teller Crane, Jr., of Chicago, the recently appointed minister to Czecho-Slovakia.

Much has been written about the Westover estate and the people who lived on it. Perhaps it is the most famous of our colonial estates. But nearly all that has been said about it refers to the period during which it belonged to Colonel William Byrd. His brilliant figure in his time won the attention of posterity. His charming "Writings," which this editor edited twenty years ago, with a sketch of the Byrd family in Virginia, have served to endear the place to those who have the happy faculty of wishing to read the good books of our early literature. It is the Westover of the second William Byrd that is best known to the present generation.

Of the Westover of the nineteenth century little has been written or known up to the present. But I have recently been allowed access to a very interesting journal kept by John A Selden, owner of the place from 1829 to 1862, which supplies much information on the subject. It is not only interesting because it relates to Westover, but because it presents an accurate picture of life on a Virginia estate just before and during the civil war. It begins abruptly with July 1, 1858, and ends abruptly May 31, 1864, a year and a half after the journalist had sold Westover; and there is a strong probability that it is not the only volume

of the kind that Mr. Selden prepared. It now belongs to Mr. Armistead Inge Selden, of "Contentment," Greensboro, Alabama, a grandson of John A. Selden, through whose courtesy I am able to give portions of it to the public.

Of John A. Selden, who owned Westover from 1829 to 1862, his own *Journal* is his best witness. He was descended from Samuel Selden, who came from England to Elizabeth City County, Virginia, in 1690. His son Joseph married Mary Cary, and died at Hampton, Virginia, full of honors, in 1727. Joseph's son, Miles Cary Selden, became a clergyman and served St. John's Church in Richmond. He was strong for the revolution and was called the "Patriot Parson." His grandson, Colonel Miles Cary Selden, married Martha Allen. One of their sons was Miles, and another was John Armistead Selden. The latter, the owner of Westover and author of *The Journal*, married Maria Pemberton, of Goochland County, and had eighteen children—fifteen sons and three daughters. Seven of these sons served in Confederate armies; six of them settled ultimately in Alabama, two of them (Miles and John) remained in Virginia, and one (James) settled in Georgia. Of the daughters, Martha (called "Kittie" by her father), married John D. Hobson, of Howard's Neck, Goochland County; his second daughter, Mary Ann (the "Mollie" of the *Journal*), did not marry; and the third, Maria, married Hugh Nelson, of Petersburg, Virginia, who settled in Alabama. John A. Selden, the father of this large family, moved to Westover soon after he bought it in 1829. During the period covered by the *Journal* he was a partner in the mercantile firm of Selden and Miller in Richmond.

Mr. Selden was a man of great energy and business ability, as his own brief entries amply testify. He was a justice of the peace of Charles City County, at a time when to hold such an office was indicative of the highest rank among the county families. He was a faithful member of the Episcopal Church in Westover Parish. His inventories show that he lived in ample comfort and the *Journal* itself mentions many handsome entertainments at Westover in his day. Among those who came and

received hospitality were Lord Napier, the British minister in Washington, Mr. Corcoran, the eminent banker and patron of art, besides the leading men of Virginia. He was on intimate terms with the leading families of the neighborhood, and in every respect he kept the life at Westover up to the high standard set by its previous owners.

Besides being a clear and accurate account of events on a Southern estate in the period before the Civil War, the *Journal* is a valuable correction of a popular representation of plantation life, for which some of our more fanciful novelists and diarists are responsible. Over such writers Mr. Selden had the great advantage of being on the spot and writing at the time. The tragedy of defeat had not supervened when he wrote. He had no other object than to put down in crisp sentences day by day what he did day by day. To him life was only what it was. He shows us a planter who never went fox-hunting, although he records once that the fox-hunters came to his place and had a good time. In fact, the *Journal* rarely mentions game of any time, and only twice alludes to hunting, once when the fox-hunters came and once when some friends of his son John came to Westover to go hunting. It is important to know that not all of the old Southern life was given up to pleasant dallying.

On the contrary, we do see a man very busy and practical. He gave the most careful attention to the seeding of wheat, oats, and clover, the dragging of the land after seeding, and its proper drainage, as well as to the harrowing and fallowing before planting. He tells us day by day how many acres were seeded and with how many bushels. With the harvest he is equally particular. The wages of his hired gleaners and binders, the shocking, the threshing, and the loading of the schooners that carried the grain from his docks to the market in Richmond,—all these are set down with the most conscientious care. There is no month in the year whose routine is not here displayed to us. And the man who directed this piece of industrial machinery is as simple and honest as if he were the hero of a novel. He directed his own plantation, and saw that his orders were carried

out with the aid of his "son Edward." He bought and sold, he carried the purse of the family, he did all the things that any prosperous farmer in the United States or out of them has to do to carry his operations on successfully. When the wheat was harvested and at market, he drew on his sales account, paid the bills of the year, and then turned his steps, accompanied by "daughter Mollie," to the White Sulphur Springs for a fortnight of relaxation. The life he exhibits is perhaps the normal life of the well-to-do Virginia planter of his day. Those who believe that there is more truth in fiction than in history will be disappointed with the *Westover Journal*; but the reader who has a sense of reality in him must feel that it glows with candor and abounds in truth.

While it is faithfulness to detail that gives the *Journal* its chief value, it is true that the book contains enough facts to make it tedious reading if printed in its entirety. With this in view, I have followed the plan of presenting one year in full—July 1, 1858, to June 30, 1859—and of publishing the remainder of the *Journal* in an abridged form, omitting all that referred to the mere routine of the estate, which had been well illustrated in the unabridged year, and including all that is of unusual interest, and especially all that refers to the civil war crisis. This plan is justified by the nature of the material, and it is made acceptable by the narrow space that can be devoted to the subject in the series in which it appears. The reader is assured that I have omitted no reference to conditions arising out of the war. Westover was in the path of McClellan's army when he fell back from the Seven-Days'-Fight around Richmond and it formed a part of his camp at his new base at Harrison's Landing. Mr. Selden was not on the estate at the time, although his wife and son were there for eight weeks, surrounded by the soldiery. It seems strange that under such conditions the diary should have told us so little about the occupation. Mr. Selden never wrote for effect; he probably never expected his record to be published. It is for this reason that we may value so highly the terse and brief entries he did make.

In general the text has been reproduced with exactness; when, however, an error seemed the result of a mere slip of the pen, I have taken the liberty of correcting it. Most of the contractions used by the diarist have been discarded for the ordinary forms, and the capitalization and punctuation have been made to conform with modern usage. Mr. Selden was an intelligent man, and he was the associate of such men as General Wise, General Magruder, Mr. Wickham, and Colonel Hill Carter. He uses as good English as others around him. His diary rarely contains mistakes, and such as are found in it may fairly be assumed to be the result of ordinary frailties of the average man of affairs. There can be no object in reproducing these slips of the pen.

29. Wednesday. Returned home in *Glen Cove*, leaving my wife and daughter Maria in Richmond. Found all well here. Not one soul has been sick this fall except Edward, my son, and that caused by his own imprudence in going into the marsh and exposing himself. Found, although they have had so dry a season, all the fallowing done and nearly the whole rolled two and three times and all dragged and drained ready to seed in wheat. They have had no rain from 17th June until the 12th this month to wet the land! The Corn Crop is entirely ruined. Do not think I shall make 100 barrels of good corn on 125 acres of land: never have witnessed such destruction in my life. Have lost 8 or 10 hogs with the Colera, as it is called. Son Edwards thinks bleeding them in the tail the best remedy. He used coperas and alum also. Some call it the black tongue. There was much of it about Richmond in the cattle. In Curles Neck they lost 240 head on Wm. Allen's Estate. My son John and wife, who have been staying here all the summer, left about a week ago.

30. Thursday. Commenced cutting down corn and ploughing corn land next grove and Flying Point pea-land. They scattered nearly half my straw this fall on Clover and field to go in corn land next year.

Most of it tumbled and had to cut with the machine only one way, and about 20 acres of corn

land. Have 100 acres now to cut. I believe but for the fallows tumbling and the army worm it would certainly have averaged 40 bushels to the acre. Have had 8 hirelings.

28. Tuesday. Finished my purple-straw and cut in evening next well in old grove on land. Wheat equal to fallow. Fine day.

30. Thursday. Finished cutting all my wheat by 4 o'cl., and shocked it all up next grove. Had 8 of son John's hands on yesterday and today. We have cut 100 acres since Monday morning averaging upwards of 25 acres with one machine. This is decidedly the best crop of wheat I have ever made or ever saw. But for its having tumbled, and the army worm, I do believe the crop would have averaged 35 bushels to the acre (220 acres). As it is I think it will average 30. The rust I think has injured my purple-straw wheat considerably. I got today this sum from Allen Bradley for draft on Selden and Miller, \$50.00, and paid my hirelings.

October

1. Saturday. . . . Arrived at home about 12 o'clock and found all well. The fallow field of 125 acres was finished on the 17th, and they had nearly finished harrowing it all over. It was in beautiful order. I left home on the 20th August and returned today, just 6 weeks. There had been no sickness scarcely during my absence. My son Edward, my manager, took a trip to the mountains for a week and then went North as far as Niagara for two weeks. My wife and son Channing managed the farm during my absence. All went on well. The season for fallowing was the best I have ever known. It rained constantly during the whole time, so that the land was never too hard. . . .

bushels wheat. Ran two drills—white wheat. Finished harrowing.

eight to Mr. John Wickham. I attended the wedding with some of my family and returned home about 2 o'clock at night. Gave to servants there, 75 cents. Had a large company. I invited them all to dinner next Thursday. Gathering in corn and ploughing, etc. Fine weather. . . .

December

1. Thursday. Had our dinner party given to Mr. John Wickham and Eliza Carter. Dined 52 persons. Had the most magnificent dinner I ever saw. I paid Captain Gifford of steamer *Glen Cove* this sum for fish, oysters, and crabs, \$6.88. Gathered in corn, ploughed, etc. The party left us about 11 o'clock at night in little steamer *Cornet*.

2. Friday. Old John Brown, the mover and head of the insurrection at Harper's Ferry, was hung today. Paid George and Simon at Berkley for assisting us as servants at dinner party, \$2.50. . . .

8. Thursday. Killed today 55 hogs. Very cold day.

9. Friday. Weighed, cut out and salted up our hogs. The 55 weighed 9,836 lbs., or an average of nearly 180 lbs. Have 26 more to kill. Turned out four sows that were very forward with pigs. . . . Weighed and cut up a hog I gave my man Dick. It weighed 178 lbs. It was a small pig I gave him last winter.

30. Monday. Took steamboat for Richmond with Mollie and servant Oliver on our way south. Got check of Selden and Miller to the amount of \$1,000. Nat Cocke came here to school.

[This visit to the South took Mr. Selden to the home of his son Joseph Selden, at Union Town, Alabama. Thence he went to Mobile and New Orleans and returned to Westover on April 9, by way of the Mississippi to Memphis, and thence by railroad to Richmond. Throughout the trip the *Journal* recounts the happenings at Westover day by day, as well as the things seen and done by the diarist on his travels.]

21. Wednesday. Paid my bill at St. Charles Hotel to leave for Mr. Wilkins's, in the Attakapas country, \$28. . . . Arrived at Mr. Wilkins's, on the Tash, about 4 o'clock. Found them all well and [received] a hearty welcome. . . .

April

2. Monday. Going up the Mississippi in the *John Raine*, with a nice party and fine band music. . . .

4. Wednesday. . . . We arrived at Memphis about 5 o'clock in the evening, having been four days and four nights coming up the river to Memphis, a distance of 800 miles altogether. We had a nice time. Fine boat, and the most accommodating manager I have ever seen. The fare on board splendid. She was commanded by Captain Goodman. We went to the Gayoso Hotel, a very good one. . . .

9. Monday. . . . Arrived at home about 10 o'clock and found all well except Burwell my Smith. My entire expenses

while away (2 mo., 12 dys.) were as above, \$761.55—\$252.55 of which was for pin, dresses, etc., not necessary expenses. I started from home with 30 dollars, got of Selden and Miller, \$1,000 and brought back \$268.45. We had a charming trip and would not have missed it on any account. Our visit to Mr. Burnside's splendid estate of Horomas [?], 75 miles above the city of New Orleans, is probably the largest and most splendid sugar estate in the world. He has expended \$2,000,000 in land and negroes. We were there eight days. He paid our expenses up and down from there and we were treated with more kindness and hospitality than I ever received in my life. We found all well at Westover, except my smith, Burwell, who has suffered very much with inflammatory rheumatism and is still confined with it. Harrowing corn land and preparing to lay off, etc. Fine weather. . . .

11. Wednesday. . . . Not being able to haul out our straw in time on clover, I set fire to the large rick in field so as plant the land in corn. I have found that unless straw is gotten out in the winter on clover it is injurious to the wheat. We burnt the straw from four or five thousand bushels wheat. . . .

24. Tuesday. Vessel arrived here last night for my corn. Put all hands to shelling it out today. Selden and Miller have sold it to Bevan and Bro., of Petersburg, at 75 cents per bushel at landing. . . .

27. Friday. Finished shelling our sale-corn today by 12 o'cl., 500 barrels. We had 550 barrels measured up for sale, but some of it was mouldy and had to throw it one side for horse corn and hogs. Started three fans to getting it ready. Ran it over the board. . . .

30. Monday. Finished delivering my corn to schooner *E. and M. G. Simpson*, Captain Bailey Sperill, in all 2,663 38-56 bushels. . . . amounting to \$1,997.25. We sold on Friday last 5 barrels corn to Doctor Wm. Cole, amount, \$18.75; so that the amount of corn sold is \$2,016. . . .

May

8. Tuesday. Mr. Corcoran, of Washington (the banker), Mr. Sargent, of New York, and Mr. Fay, of Massachusetts, dined

July

13. Friday. . . . Man Edmund very sick. Died at night. Think it was from curing up a sore too suddenly. Very great loss to me, not less than \$1,000. Son Willie and Jimmie left for Old Point. . . .

20. Friday. . . . Mr. J. L. Gordon McCabe, my teacher, left me this morning, after having been here in that capacity for two years. I have great admiration for him in every particular. A young man of extraordinary capacity, a hard student, strictly attentive to his duties, conscientious and moral, beyond anyone of his age I have ever known. Settled with Mr. McCabe as follows: Paid him previously to this \$100, cash today \$10, gave him an order on Selden and Miller, of Richmond, for \$390, [total] \$500. Received of Mrs. Martha Cocke, of Prince George, this sum for the board and tuition of her son Nat from 1st Feby. to date, 5¾ months at \$20 month, \$113.33. . . . Received of Mr. N. C. Cocke this sum in full for his daughter Mary's board and tuition and books for the past year, \$173.53. . . .

August

1. Wednesday. . . . Finished in evening all my wheat. Threshed 138 bushels red wheat which finished the entire crop,

² The book contains many entries like this.

making 3,149 bushels as measured from machine. I do not believe this is one-half the crop that I should have made from the 222 acres. The entire crop averaged me rather over 14 bushels. . . . This crop, which promised to be the best I ever made, was destroyed by army worms, fly, joint worms, etc., none of which made their appearance until the wheat was all headed up. . . .

9. Thursday. . . . I left home this day with my daughter Mollie, Willie, servant Oliver, and self for White Sulphur Springs, as also man Burwell for the Hot Springs. . . .

12. Sunday. . . . Arrived at White Sulphur to dinner and found great crowd, say 1,900. . . .

September.

7. Friday. Paid stage fare for Oliver to Hot Springs, \$4.00. Paid for Oliver to spend a week at Hot Springs for the rheumatism, \$20.00. . . . Son Miles, Wm. Allen, Mr. Howard, and Mr. Robertson came here to go sora-shooting. . . .

28. Friday. . . . Settled with Hoxall, Crenshaw & Co., the price of my wheat at 160 cts. per bushel,³ $\frac{1}{2}$ cash and the other half 1st of Jany., 1861. The 2,500 bushels amounted to exactly \$4,000.

29. Saturday. . . . Returned home after an absence of seven weeks and three days. Left Mollie at Howard's Neck and my wife in Goochland. Found all well at home, and but one chill the entire summer. There are three rollers and four harrows going. I never had a field in such beautiful order for seeding before at this season. It all looked as if it was seeded. The earth very dry. . . .

³ But in final settlement 15 cents a bushel was deducted from the price of the red wheat (see *Journal*, October 24, 1860).

October

20. Saturday. . . . Gave out my negroes' shoes, bought of Putney and Watts, 46 pairs. . . .

November

1. Thursday. . . . Miss Mary Rodney and her father arrived from Lewes, Delaware. Miss Rodney has come as teacher in my family at \$60 per month. Very warm spring day. . . .

7. Wednesday. Bo't 4 bushels oysters, \$3.00. . . .

15. Thursday. . . . Finished seeding all my wheat. Seeded today $5\frac{1}{2}$ acres and 8 bushels, making of red wheat $37\frac{1}{2}$ acres and $50\frac{3}{4}$ bushels, and all together $215\frac{1}{2}$ acres and $359\frac{1}{4}$ bushels wheat. The wheat first seeded, and indeed all the fallow, is filled with the Hessian fly. The crop is very luxuriant and looks now like May. The most of the fallow covers the ground completely. Gathered in corn all the evening.

16. Friday. Delivered to Mr. A. C. and R. S. Rowland balance of my wheat as follows: 44 26-60 bushels white seed at \$1.60, \$71.10; 32 32-60 bushels red seed at \$1.40, \$45.50; 233 32-60 white screenings at \$1.30, \$305.55; [total] \$420.15. Gathered in corn all day. A fine, sweet day. . . .

21. Wednesday. Quite cool this morning. Killed 40 hogs by breakfast time. They would have been very fine but for so many being with pig. Delivered to Captain Southgate, of *Glen Cove*, 27 turkeys at 75 cts. each, \$20.25. . . .

22. Thursday. Weighed, cut out, and salted up the 40 hogs. They weighed 6,321 lbs., an average of 158 lbs. They would have gone to 175 lbs. but for so many being with pig. We had to destroy some 70 pigs. Finished salting up by 12 o'cl. and tried up all the lard by 4 o'cl. Gathered up corn all the evening.

December

1. Saturday. Paid my taxes today to James Hubbard, sheriff of Charles City. Paid him cash \$100 and an order on Selden

13. Thursday. Weighed, cut out, and salted up the 54 hogs by 12 o'clock. The 54 hogs weighed 7,671 lbs, an average of 142 lbs. The 94 hogs weighed 13,992 lbs., or an average of 148½ lbs. This is the largest killing I believe I have ever made. The hogs were more equal in size and quite fat. But for there being so many with pig it would have been a superb killing. Ploughed and gathered in corn all the evening. . . .

24. Monday. . . . I went up to Shirley and spent the day. Visited the *Virginia Dare* laying at the Hundred, the ship my son Channing is going to sea in. Found her a very fine ship. Gathered in some corn. Got wood for Xmas, etc. Son Jimmie came home from school.

March

4. Monday. This is the day of the inauguration of the vile Black Republican President, Abraham Lincoln, of Illinois. Great change in the weather: turned quite cold. Wind N. or N. W.

⁴This is the only allusion to fox-hunting in Selden's *Westover Journal*. Whatever the condition elsewhere in Virginia, Westover, in Mr. Selden's day, was not the home of huntsmen.

⁵This is the only mention in the *Westover Journal* of the whipping of a slave.

April

12. Friday. The papers state that the freshet in the James and other rivers in Virginia is the highest by far since 1847. She towed up the powder taken last night, 80,000 lbs. . . .

21. Sunday. Great excitement in Richmond, as it was re-

ported that the *Pawnee* was coming up to Richmond to recapture the powder. Every company in the city and every man who could get a gun of any sort or kind was at Rockets to repel her. It was said she had 1,600 men on board. . . .

23. Tuesday. Went down to John's, Gus. Crenshaw's, and Dr. Selden's to see my sister Martha⁶ and to offer my services to take care of their families in the mountains. 11. Tuesday. Heard by steam boat that they had had a fight near Hampton. Our troop cavalry was in the engagement. The report was that 300 of the Yankees were killed and only one of our men, and he from N. Carolina. . . .

12. Wednesday. Account of the battle of Bethel Church, in Elizabeth City County, between our forces, 1,200 in all, and the Northern forces, 4,000 to 5,000 strong, was a complete victory and route of the Yankees. The Yankees lost 200 in killed and wounded and we only 1 man killed and 7 wounded. Such a victory is scarcely upon record. Our troops were commanded by Gen. Magruder and the Northern by Gen. Butler. One Colonel and one major were killed on the Northern side. The battle was fought by only 800 of our men, the rest being cavalry held in reserve. One Richmond howitzer company, Major G. W. Randolph and Col. Hill's N. C. regiment of infantry did the whole. The Yankees made three rallies and were repulsed each time, the last time a complete rout. The road was completely strewn with the dead and wounded all the way to Hampton. Our Charles City Cavalry, my son John in the company, was on the ground and pursued them in the rout. Bought a sturgeon for \$1.25. . . .

The latter was completely whipped and routed. 15,000 men under Gen. Joe Johnston whipped 35,000 under Gen. Patterson, the latter taken

prisoner. The loss of the Yankees estimated at 12,000 to 15,000 killed, and the Confederate loss some 2,000. This is the greatest battle ever fought on the American continent. Attended church. Fine day. . . .

25. Thursday. Sent 6 hired men down to Williamsburg to work on the fortification at 75 cts. a day. Gen. Magruder required one half of all the men from those that had not worked on fortifications. As I worked 8 of my men 4 days on Fort Powhatan I sent only one-fourth of mine. Gave the men this sum to pay their fare down, \$6.00. The men were Tom Hair, Joe Albert, Billy Harris, Sykes, Nicholas Jackson, and John Johns, from Petersburg. . . .

After a desperate fight we had to surrender to an overpowering force. Our hold [*sic*] number on the island was not more than 2,500, whereas the enemy had 50 odd vessels engaged in the fight and a land force of 15,000 men. O. G. Wise and my partner's son, Edgar Miller,¹¹ reported to have been mortally wounded. Only 50 men are said to have escaped. All the rest had to surrender. March

8. Saturday. . . . Today the naval engagement off Newport News between an ironclad steamer *Merrimac* (now the *Virginia*) and the Newport News battery and the frigates *Cumberland*, *Congress*, *Minnesota*, and many gunboats. . . .

10. Monday. Had full accounts and confirmation of the fight off Newport News. The *Virginia* (ironclad steamer), *Patrick Henry*, and *Jamestown* (sidewheel steamers), the gunboats *Teazel*, *Beaufort*, and another, sunk the *Cumberland*, burnt the *Congress* and nearly destroyed the *Minnesota* (frigates of the enemy), besides destroying nearly all their gunboats and dismantling all their guns at Newport News and killing and otherwise destroying some 1,200 of the enemy. . . .

13. Thursday. Sent son Edward down to Jamestown to prepare for my negroes that are to be sent down there on Saturday next by the requisition of Gen. Magruder. Gave him this sum for expenses, \$5.00.

15. Saturday. The West Point steamboat¹⁴ went up today, having run the blockade at Newport News in consequence of its being broken up by the ironclad steamer *Virginia*. About sunrise there set in a dense fog. I sent six of my negroes today to Jamestown to work on the fortifications by order of Gen. Magruder. Their names are James, Austin, Anderson, Thomas, Nathan, and Carter, all young and likely. I send them very reluctantly; for I am not only very backward in my farming operations, but they must be very much exposed and liable to be sick. I would greatly prefer paying money in their stead. . . .

28. Received of Selden and Miller this sum as part of my portion of the division of our funds on hand, making a just and equal distribution—viz., \$5,000. Miles Selden received or takes out \$30,000; E. Miller, his capital of \$2,500 and \$20,000 profits. \$22,500; John A. Selden his capital \$10,000 and \$10,000 profits, \$20,000; Wm. Allen, same—\$20,000. [Total] \$92,500. There will be about \$72,500 left in concern to carry it on or to be dis-

tributed hereafter. Sent my man Oliver up to John D. Hobson's this evening to carry a check for the \$5,000 to my sister Martha B. Saunders to pay my bond due her for this sum,—money I borrowed, etc., of Captain Saunders on the 1st February, 1835. This pays her in full. There is 3 months interest due her (\$75), which is paid in the board and tuition of her daughter Pattie at my house from the 10th October, 1861, to this date. Vessel arrived here for my corn this evening. . . . I went up with son Miles to Amelia Springs.

29. Saturday. Staid all night at Jetersville Station on the Danville road. Hired a horse and buggy and went to Amelia Springs, 3 miles from there. 31. Monday. Received of Selden and Miller this sum in full of my proportion of our dividend determined on, including the sales of my bacon, flour, and corn (\$588.68), \$4,654.26. Deposited of this sum, \$4,175.70 in Va. Bank at Richmond; so that I have in Bank of Va. now \$4,470.58. Deposited also the \$5,000 returned to me by my sister to be invested in stock for her, making \$9,175.70 deposited today. Bought today \$4,500 worth of N. C. State stock payable in '83 at 102 for my sister, M. B. Saunders. Bought do. \$400 worth of Va. State at 93½ for ditto, \$374; [total] \$4,995, leaving a balance of \$5.00. This stock (the N. C.) pays 8 per cent and the Va. 6 per cent. I bought also two \$1,000 shares of N. C. State stock for myself at \$102, making \$2,053.77, for all of which I gave Miles a check for \$7,048.77. This leaves me in Bank of Va. now, after deducting the \$1.40 overdrawn, \$2,416.81. . . .

April

1. Tuesday. . . . Commenced delivering corn this morning to schooner *C. A. Finley*, Captain B. Spruill. . . .

and M. to the Government at \$4.00 [a barrel] or 80 cts. per bushels, delivered in Richmond. I pay 5 cts. freight. Started to shelling out more corn. . . .

3. Thursday. Edgar Miller went up to City Point in my row boat to see about chartering a car to carry my things up to Amelia Springs. He succeeded and returned home by 12 o'cl., bringing down Wm. A. Harrison's large boat to carry my things up to City Point. Shelling corn with all hands.

4. Friday. Edgar Miller went up last night at 3 o'cl. to City Point with both boats loaded with barrels, etc., of my things, to be shipped to Amelia Springs. . . .

5. Saturday. Weighed all my bacon on hand. Have now of sides, shoulders, and joles, 5,750 lbs., besides about 75 hams. Shall ship about 4 hogs[heads], or 3,000 lbs., to Amelia Springs. The battle on the Peninsular, below York Town commenced this morning. Started a plo' and cleaning corn.

8. Tuesday. Rained incessantly all day. Finished loading the vessel. Cleaning corn, etc. My boy Robert gave me insults and ran away and I shot him in thigh.¹⁵

9. Wednesday. Vessel left and took up Sugar Knox, her two children, and Pattie Saunders to City Point; also Edgar Miller, who is to carry my things up to Amelia Springs. Gave Sugar Knox this sum to pay her expenses up to Kittie's, \$10.00.

¹⁵ This "boy Robert" had been the servant of Mr. John D. Hobson, Mr. Selden's son-in-law, of the Confederate cavalry.

Gave Edgar Miller this sum to pay expenses of my things to Amelia Springs, \$150.00. Rained incessantly all day. Cleaned corn, etc. Fighting at York Town still.

10. Thursday. Still fighting at York Town. Stopped raining today, but cloudy and quite cold. The poor soldiers must have had dreadful times. . . .

11. Friday. Clear, beautiful day, but quite cool. . . . Repairing fence running to Berkley, between fallow or clover and corn land. Mary Selden returned from Petersburg via Shirley. Came down from there in wagon. No boats have stopped on the river now for a week, all being employed in carrying troops down to the Peninsular. We got a paper today by Mary, which is the first we have seen for more than a week. It gives an account of the great victory at Corinth, and the death of General Albert Sidney Johnston. If the accounts are correct, the victory was complete. The Federals are reported to have lost in killed and wounded from 8 to 10,000 and 5,000 prisoners. Our reported loss, 3,000 in killed and wounded; and we were in full pursuit. Their army completely demoralized. Thus says the Petersburg *Express*. Still repairing fences, etc. . . .

13. Sunday. Two of my boys from James Town returned—James and Thomas. They have been there just 4 weeks. There are 3 now remaining, Austin, Nathan, and Carter. They report the two latter sick. . . .

14. Monday. . . . More troops going down the river. Expect a great fight below York Town. . . .

18. Friday. Started everything to harrowing and getting the land ploughed ready to plant in corn immediately, as I understand my horses will probably be pressed into the service of the army. Edgar Miller returned me \$11.10 of the \$150 I gave him on the 9th to pay expenses of things up to Amelia Springs. . . . Sending my negroes' hay over to Berkley to be pressed. Had two ox-carts and 9 men at it all day. Captain Wm. Green of the navy arrived by land.

19. Saturday. I have had 9 men two days bailing up my negroes' hay at Berkley. Delivered it this morning. Mager de-

livered 527 lbs., Wm. and Carter, 851; Wm. himself, 656; Anderson, 979; and Austin, 212; in all, 3,225 lbs. . . . Sent here again for my negroes, but would not send them to work on fortifications. Have three there now, and understand two of them are sick. . . .

21. Monday. Easter holiday. Wind E. and N. E. all day, and drizzling rain. Very bad weather. The *Patrick Henry* and *James Town* passed up the river, one on yesterday and the other today; also a small gunboat. Suppose they ran the blockade or have driven them from Newport News. . . .

1. Thursday. . . . Received of Harris Miles this sum for 6 veals he sold for me in Richmond. I paid him $\frac{1}{6}$ for selling. He received \$20 each, \$120, less $\frac{1}{6}$, \$100 nett. Paid my negroes for their hay. . . .

5. Monday. Gen. John B. Magruder and staff arrived here tonight from below Grove Wharf to remain until he recovers from boils, etc. He came up in the *Wm. Allison*. Major Magruder (his brother), Captain Wm. Allston, Captain Hugh

Stanard, Captain Brent, Captain ———, ¹⁶ and Doctor Mallen and others came, with horses, etc.

6. Tuesday. Preparing to leave home for Amelia Springs. Land too wet to work. Left home with my two daughters, Mollie and Maria, at half past 11 o'clock today. Brought with me, of my servants: Oliver, Robert, Mager, James, William, Thomas, Anderson, George, Pompey, Miles, Nathan, and Carter—young men; also, Matilda, Arrena, Julia, Eliza and little Lizzie—women and girls, making 17. Gave my wife before leaving home, this sum, \$120. . . . Brought along also 4 of my best cows. We started off with my buggy and my two carriage-horses, my riding horse, 2 wagons, and 8 of my best mules. It was the gloomiest and most heart-rending thing I ever did in my life, to leave my wife and a part of my family behind. But I did it advisedly, as every friend I had advised me that they should remain, or else lose all I had at Westover. Never shall I forget my sufferings on the occasion. Even my negroes that I left behind wept bitterly. General Magruder and his whole staff said I must leave as I did. We arrived safely in Richmond by sundown and stopped at Mr. Richard Wilkins's, on Church Hill. I could not get my horses or anything in at a livery stable, so had to stop in the street.

7. Wednesday. Remained in Richmond all day. . . . I bought for my boy Nathan a coat, \$5.00, pr. pants, \$2.25, and a flannel shirt, \$4.00. Gave to my negroes \$1.00 each. . . .

8. Thursday. Left Richmond for the Amelia Springs about 8 o'clock and got as far as the High Hills, Mr. Martin's, 20 miles, where we staid all night. Found the road very bad, and very much fatigued. We could have gone much farther but was worried by the cows' slow gait, and the men could not keep up.

9. Friday. Left the High Hills and got to Mr. Holt's, where we fed. Paid Mr. Holt this sum for fodder, \$1.25. We arrived at Amelia Springs about sundown after passing over the worst road I ever saw. I paid Mr. Martin at the High Hills this morning this sum for lodging, \$5.00, and his servants, 55 cts.

¹⁶ Name omitted.

10. Saturday. . . . Set my hands to fixing a stable for my mules; etc. Very warm day. We have fixed ourselves in two rooms in the cabin row. . . .¹⁷

12. Monday. Unpacked all my meat at the Springs and found it would have injured very much, if not have spoilt. Very mouldy and splably.[?] Sunned it all and counted it. Had, in hogsheads, 79 middlings, 80 shoulders, and 11 joles—in all, 170 pieces, and 45 hams, put away in Mr. Willson's smoke house; so that I brought away from home 215 pieces meat and about 3,700 lbs. bacon, and left about the same at home. My wagons hauling for Mr. Willson cotton from the depot. They made 6 loads today. The rest of my hands planting potatoes for Mr. Willson.

13. Tuesday. . . . I received a letter from my wife today dated the 9th. No enemy had then come up the river. And one from E. Miller of yesterday's date—very despondent and gloomy letter. I received a letter from Mr. Miller saying that we had sold 1932 lbs. beef to Gen. Magruder at 20 cts., \$386.50, and the money would not be paid in Richmond in consequence of some informality in the draft. . . .

15. Thursday. . . . Heard the federal gunboats were in 8 miles of Richmond and had had a slight fight. . . .

21. Wednesday. . . . Got a letter from my wife dated 16th. Federals had not stopped or interfered with us at home so far. . . .

Our forces fought nearly all day on Williamsburg road 9 miles from Richmond. Gen. Joe. Johnston wounded. Our loss very heavy, supposed from 2 to 3,000. We drove the federals back some 3 miles.

28. Saturday. Tremendous fighting on the Peninsular. We have driven the enemy back some 15 miles, captured a great many prisoners, and killed vast numbers. Our loss estimated at some 8000. The enemy probably double that number. . . .

Gave them an order on Selden and Miller for this sum, \$585.37. This is in full to this date. Their bill was an imposition beyond anything ever known.

¹⁸ While at Amelia Springs Mr. Selden hired his slaves out to the neighboring farmers. The detailed reports in his *Journal* of their labors shows how closely he was connected with their activities. It was as though he was still supervising them.

7. Sunday. My last day at the Amelia Springs. I went down to Richmond today with daughter Mollie to meet my wife from Westover. Found her at son Miles's, with Aunt Mary Selden, son Ned and Army. They were caught at Westover by the retreat of the federal army from around Richmond and have been kept at Westover for the last 8 weeks without ever being allowed to leave the yard. Ned has been very ill and now scarcely able to walk. I had not seen them before for 4 months. . . .

8. Monday. Received of Captain Cary this sum for 4 mules for the quartermaster's department, \$650. . . .

9. Tuesday. Gave my Aunt Mary Selden this sum, \$100. Received of the government this sum for work done by my negroes in April last at James Town, etc., \$50.98. . . .

11. Thursday. Went down and spent day with Gen. Wise at Chapin's Bluff. . . .

15. Monday. Went down to Drury's Bluff, and from there to Chapin's Bluff, and staid all night with Gen. Wise. . . .

16. Tuesday. Paid for \$1,200 worth of Confederate stock at par, \$1,200. Paid by Selden and Miller 8 per cent. Received of Selden and Miller, to pay for the above, \$1,200. Returned to Richmond with Gen. Wise, and hired a buggy at \$15 per day to go to Westover. Staid all night with Gen. Wise at Chapin's. . . .

17. Wednesday. Went down to Westover with Wm. Allen. Found the estate entirely ruined. Should not have known it. Found Jarrat,¹⁹ wife and 7 children, Edwin and wife, Jack, Moses, and John Camel, there. All the rest gone away with the Yankees, 36 in no.²⁰ The entire country ruined.

18. Thursday. Sold the Westover estate to Messrs. Ellet and Drury, of Richmond, for the sum of fifty thousand dollars cash—fifteen thousand dollars less than I had been offered for it before

the war. In the sale was included all my farming utensils. I lost all my crop, 36 negroes, and plantation swept of everything on it except houses, and dug up and injured to any extent. I think my loss cannot be less than \$75,000 dollars.
